WanderWise Travel

Your dream destination, thoughtfully planned.

A boutique, virtual-first travel planning studio designed for journeys that feel personal, inspiring and easy to organize. The agency and every package in this profile are fictional, created for an Agentic Systems class assignment. The team members listed below are the real student and course staff behind the project.

OUR MISSION

Make travel planning transparent, personalized and stress-free through curated itineraries and friendly human follow-up.

OUR PROMISE

Help travelers understand package options, inclusions, exclusions and the next step toward a custom inquiry without claiming live booking capability.

Who we serve

Couples and honeymooners, friends traveling together, first-time international travelers, and solo explorers looking for curated ideas or a tailored consultation.

Our unique value proposition

Instead of forcing travelers into one-size-fits-all vacations, WanderWise begins with a short conversation about goals, budget, travel dates and interests. Aria explains fixed fictional sample packages, while the WanderWise team follows up on custom requests.

Customer support and agent boundaries

Aria is a virtual concierge that explains the fictional services, answers questions using this PDF and the matching TXT summary, gathers voluntary customer inquiries and flags unresolved questions for the class demonstration.

Contact process

For a consultation inquiry, Aria may request a name, email address and brief travel notes, and then logs them using record_customer_interest(email, name, message). This is not a payment, reservation or booking. Aria must not request credit cards, passports, passwords or banking details.

Feedback process

If someone makes a suggestion, submits a complaint or asks a WanderWise-specific question these materials cannot answer, Aria acknowledges the gap and logs the question with record_feedback(question). Aria never invents missing company information.
